Skills

Programming: Python | JavaScript | SQL | OOPS

Technologies: Django | HTML | CSS | ReactJS | Manual testing technology

Tools: VS Code | Git | Github | MS Excel | Jira

Work Experience

Trackbes Technologies | Software Tester

April'24 – Jan'25

- As a Software Tester at Trackbes Technologies, I gained hands-on experience in manual testing, where I was responsible for ensuring the quality and functionality of various software applications. My key responsibilities included:
- Designing and executing test cases to identify defects and ensure the software met the specified requirements.
- Collaborating with developers and product managers to understand application features and requirements.
- Documenting and reporting bugs, issues, and enhancements in a clear and concise manner

NETCOREINFO BUSINESS GROUP | Full Stack Developer Intern

Nov'23 - Jan'24

- Developed web applications using Django framework, leveraging Python for backend logic and database interactions along with responsive user interfaces using HTML, CSS, and Bootstrap, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborated with team members to brainstorm and implement new features, adhering to project requirements and deadlines.
- Conducted code reviews and participated in debugging sessions to identify and resolve issues, ensuring high-quality code.

Projects

INVOICE |HTML | CSS | JavaScript | Bootstrap || Django

Nov'23

- User-friendly website interface for generating invoices. It allows users to input necessary details such as company information, client details, invoice items, and payment terms.
- Generates professional-looking PDF invoices based on the entered information and ensures security and privacy of user data through encryption and secure transmission protocols.
- Automatically calculates totals, taxes, and discounts based on the entered invoice items and enables users to preview the invoice before finalizing and downloading it.

Portfolio Website |HTML| CSS| JavaScript | Bootstrap | Django

Feb'24

- Built with HTML, CSS, and JavaScript to ensure a modern, responsive, and engaging user experience across all devices.
- Showcases detailed project descriptions and a blog section for sharing insights and tutorials, all managed efficiently through Django's powerful framework.
- Used Django, providing robust backend operations including content management, and seamless database interactions.

Education

IIMT Engineering College, Meerut India

2020 - 2024

- Branch | Computer science engineering

St. Xavier's High School, India

2019- 2020

Intermediate (XII)

St. Xavier's High School, India

2018

High School (X)

Courses and Certifications

UPDESCO

Sep'23 .

- Completed the curriculum on OOPS and C++

NITD India

Jan'23 – March'23

- Completed a training program on advance Python programming and Django.
