Skills

Python | JavaScript | SQL | HTML | CSS | Manual testing

Tools: VS Code | Git | Github | MS Excel | Jira | Postman

Work Experience

GarudaUAV | Manual Tester

Nov'24 – Present

- Working as a Manual Tester on critical drone-based infrastructure monitoring projects, including NHAI-DAMS.
- Verified end-to-end data flow from field collection to AI-based classification and processing on the NHAI-DAMS portal.
- Conducted API testing using Postman to validate data ingestion endpoints and AI inference responses.
- Tested AI module responsible for analyzing satellite/field data.
- Collaborated closely with AI engineers and backend developers to identify and resolve issues in real-time.

Trackbes Technologies | Software Tester

April'24 – Oct'24

- As a Software Tester at Trackbes Technologies, I gained hands-on experience in manual testing, where I was responsible for ensuring the quality and functionality of various software applications. My key responsibilities included.
- Designing and executing test cases to identify defects and ensure the software met the specified requirements.
- Collaborating with developers and product managers to understand application features and requirements.
- Documenting and reporting bugs, issues, and enhancements in a clear and concise manner.

Projects

Invoice Generator | HTML | CSS | JavaScript | Bootstrap

Nov'24

- Performed functional and UI testing to validate invoice creation, user inputs, and PDF generation features.
- Verified accurate calculations of totals, taxes, and discounts based on user-entered invoice items.
- Ensured data privacy by testing encryption and secure transmission protocols.
- Conducted cross-browser and responsive testing to ensure consistent performance across devices.

Trahicle (Employee Tracking & Attendance App) | Manual Testing

May'24

- Performed functional testing of user authentication, ensuring only valid users could log in and access features.
- Verified accurate attendance marking at the correct time and location.
- Validated GPS coordinates tracking to ensure real-time and precise employee location monitoring.
- Conducted UI/UX testing to ensure smooth navigation and user-friendly design.
- Reported and tracked defects in Jira, collaborating with developers for timely fixes.

Education

IIMT Engineering College, Meerut India

2020 - 2024

Branch | Computer science engineering

St. Xavier's High School, India

2019- 2020

Intermediate (XII)

St. Xavier's High School, India

2018

High School (X)

Courses and Certifications

UPDESCO

Sep'23

- Completed the curriculum on OOPS and C++

NITD India

Jan'23 – March'23

- Completed a training program on advance Python programming and Django.
